About Me

Final year Bachelor of Science in Information Technology (BSc IT) student at North West University. Passionate about software development, system design, and network simulation. I bring hands-on experience with programming, databases, and teamwork through academic projects and coursework.

Education

- **North West University**
  Final Year BSc in Information Technology – Expected 2025
- **Mvenyane Senior Secondary School**
  Completed Matric (Grade 12) – 2022

Projects & Experience

- Designed and implemented small-scale systems using Java, C++, and C#
- Developed and maintained SQL databases, including writing complex queries
- Built efficient software using data structures and algorithms
- Created C# applications using object-oriented programming principles
- Simulated networks using Cisco Packet Tracer for academic use cases
- Developed a Java application demonstrating inheritance, encapsulation, and polymorphism

Technical Skills

- **Languages:** Java, C++, C#, Python, SQL
- **Development:** Object-Oriented Programming, GUI Development, System Design
- **Databases:** MySQL, database design & management
- **Networking:** Cisco Packet Tracer, Network Simulation & Design
- **Tools:** Git, Visual Studio, IntelliJ, Eclipse
- **Concepts:** Data Structures, Algorithms, Networking Fundamentals

Soft Skills

- Problem-Solving
- Team Collaboration (Agile-style teamwork)
- Communication (verbal & written)
- Adaptability & fast learning
- Time Management
- Attention to Detail
- Self-Motivation & initiative
